Invitation
to the Convention

Converter — 40 years on

October 05 – 07, 2011

**Dear Madam,
dear Sir,**

Converter — 40 years on! This is an event to celebrate — together with you. You are cordially invited to take part in a jubilee event of a special kind.

To mark the 40th anniversary of the innovative process of converting cast iron into nodular cast iron by pure magnesium treatment — a development of Georg Fischer — we have prepared an exciting program, and for your companion an attractive supporting program — in and around Schaffhausen.

The Converter Convention provides a wide range of informative lectures given by renowned speakers in a particularly delightful venue, the Kloostergut Paradies, a former monastery, directly on the banks of the Rhine. Guided tours through our Central R&D Testing Laboratory and a visit to the Iron Foundry in Singen (Germany), as well as a joint sightseeing tour by night are additional highlights of the convention.

We look forward with great pleasure to welcoming you to this event.

Schaffhausen, May 16, 2011

A handwritten signature in black ink, appearing to read 'Josef Edbauer', written in a cursive style.

Josef Edbauer
Head of GF Automotive
