

ASCO Dry Ice Production - Ice cold know-how for every dry ice need

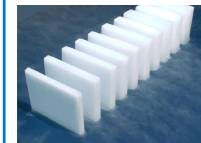

Be it for blasting or cooling, catering or transportation purposes, ASCO has your dry ice solution for all your requirements. Please contact our specialists for further information.

Dry ice pellets for blasting purposes

Dry ice pellets for cooling purposes

Dry ice slices for catering and transportation purposes

Dry Ice Pelletizer A30P

This compact dry ice pelletizer is suitable for the production of small amounts of dry ice for blasting and cooling purposes.

Production capacity:
30 kg/h (66.1 lb/h)

Pellet sizes:
3 mm, 6 mm, 10 mm, 16 mm
(1/8, 1/4, 3/8, 5/8 in)

Dry Ice Pelletizer A55P

This compact dry ice pelletizer is ideal for establishing an in-house dry ice production or for building up small dry ice production centres.

Production capacity:
55 kg/h (121.3 lb/h)

Pellet sizes:
3 mm, 6 mm, 10 mm, 16 mm
(1/8, 1/4, 3/8, 5/8 in)

Dry Ice Pelletizer A120P

The compact, powerful and versatile dry ice pelletizer produces pellets in five different sizes for a medium-sized dry ice need.

Production capacity:
120 kg/h (264.6 lb/h)

Pellet sizes:
1.7 mm, 3 mm, 6 mm, 10 mm, 16 mm
(1/16, 1/8, 1/4, 3/8, 5/8 in)

Dry Ice Pelletizer P28

This compact and powerful dry ice pelletizer has a production capacity of 280 kg/hr and meets the demands for higher quantities plus quality and flexibility in the daily working process.

Production capacity:
280 kg/h (617.3 lb/h)

Pellet sizes:
3 mm, 10 mm, 16 mm
(1/8, 3/8, 5/8 in)

Dry Ice Pelletizer P450

This pelletizer has been developed to meet the demands of large quantities of dry ice pellets of highest quality.

Production capacity:
450 kg/h (992.1 lb/h)

Pellet sizes:
3 mm, 6 mm, 10 mm, 16 mm, 19 mm
(1/8, 1/4, 3/8, 5/8, 3/4 in)

Dry Ice Pelletizer P700

ASCO's most powerful pelletizer has been developed to meet the requirement of very large quantities of impeccable quality.

Production capacity:
700 kg/h (1543.2 lb/h)

Pellet sizes:
3 mm, 6 mm, 10 mm, 16 mm, 19 mm
(1/8, 1/4, 3/8, 5/8, 3/4 in)

Dry Ice Machine B207

This semi-automatic dry ice machine produces dry ice blocks which are mostly used for catering and transportation purposes.

Production capacity:
100-115 kg/h (220.5-253.5 lb/h)

Block/slice dimensions:
210 mm × 125 mm (8.3 × 4.9 in)
Thicknesses: 20, 21, 22, 23, 24, 25 mm
(0.78 to 1 in)

Dry Ice Machine BP420

This state-of-the-art automatic dry ice machine produces two different pellet sizes and ten different block/slice thicknesses at the push of a button.

Production capacity:
240-400 kg/h
(529.1-881.8 lb/h)

Pellet sizes:
3 mm, 6 mm, 10 mm, 16 mm
(1/8, 1/4, 3/8, 5/8 in)
Block/slice dimensions:
210 mm × 125 mm (8.3 × 4.9 in)
Thicknesses: 20 to 70 mm (0.78 to 2.75 in)
other dimensions upon request

Dry Ice Reformer A700R

The dry ice reformer A700R produces dense dry ice blocks/slices in various sizes by compressing dry ice pellets.

Production capacity:
200-700 kg/h (440.9-1543.2 lb/h)

Block/slice dimensions:
210 mm × 125 mm (8.3 × 4.9 in)
Thicknesses: 16 to 60 mm (0.63 to 2.36 in)
(stepless)
