

ALUMINIUM 2014

10th World Trade Fair & Conference
7-9 October 2014, Messe Düsseldorf, Germany

Foundry-Planet invites you to ALUMINIUM 2014

ALUMINIUM is the world's leading trade show and B2B-meeting place for the aluminium industry. ALUMINIUM brings together the global aluminium community, connecting high-calibre buyers, manufacturers, processors and suppliers. Showcasing innovative products, the latest technology and services from primary aluminium production to semi-finished and finished products, ALUMINIUM is the place to be for all those searching for high-tech and sustainable solutions. The trade fair boosts business and technological sourcing within the aluminium industry and establishes links between the material itself and the application industries.

Experience in 3 days what's happening in the industry and discover the latest aluminium solutions for your future technological challenges. Meet your target group, existing customers and suppliers and generate new business. Products, technology and services for your specific needs and your industry are presented by the exhibitors, in dedicated showcase areas and at the high-class conference that is held alongside ALUMINIUM.

ALUMINIUM World Trade Fair is held every 2 years in Germany and attracts companies and industry professionals from more than 100 countries. ALUMINIUM in Düsseldorf is the flagship event of Reed Exhibitions' ALUMINIUM brand, which provides access to most dynamic aluminium markets world-wide and includes trade shows in China, India, Middle East and Brazil.
