

Wax Beads – Solid Plunger- and Sleeve- Lubricant

Isolat[®] Beads consist of high melting, non-sticky and neutral waxes which are environmentally friendly. They can be used in all approved beads dispensers. Only purified graphites are used. Free flowing and anti-static, they are also suitable under tropical conditions.

A reliable and precise application is achievable in conjunction with **TRIBO BEADS DISPENSER 3D** (with the **3-D Arm**) for minimal dosing (exact dosing below 0,5 g / shot possible).

Product	Type	Appearance	Available sizes	Shape
Isolat[®] 80 G	wax with graphite content 18-20 %	black	0,5 - 1,0 mm 1,0 - 1,6 mm 1,6 - 2,0 mm 2,0 – 3,0 mm	perfectly round globules
