

INVITATION

Innovative technologies for metals and steel

A value-added seminar for key technologists, engineers
and decision makers in the metals and steel industry.

The introduced state-of-the-art technologies are the perfect tools for
increasing your profits and market share by increasing quality and value of
your products and optimizing running costs, flexibility and plant reliability

Wednesday, 20 February 2013

11.30 am – 5.30 pm

Room Bromo 1,
6th Floor, Trademart Building
Jakarta International Expo
Kemayoran, Jakarta Pusat, Indonesia

This seminar is jointly organized by:

PROGRAM

11.30 am – 12.00 pm	Registration
12.00 pm – 1.00 pm	Buffet lunch
1.00 pm – 1.30 pm	Welcome and introduction (PT. WIN Electroindo Heat)
1.30 pm – 2.15 pm	Session #1: Special machines and technologies for product identification for the metallurgical industry and aluminum wheel producers (ALPINE METAL TECH Group)
2.15 pm – 3.00 pm	Session #2: Innovative solutions for cutting and grinding of steel and special metals products (BRAUN Maschinenfabrik GmbH)
3.00 pm – 3.30 pm	Coffee break
3.30 pm – 4.15 pm	Session #3: High-performance gear systems for the steel industry – latest developments in design and conditioning monitoring (EISENBEISS GmbH)
4.15 pm – 5.00 pm	Session #4: State-of-the-art sawing and torch cutting machines for the steel industry (FRAMAG Industrieanlagenbau GmbH)
5.00 pm – 5.30 pm	Q & A, photo session and farewell
