**NMSTU** is a multidisciplinary research and educational center, known in Russia and abroad for its scientific schools in engineering. It is a reference university in the South Urals and the largest center for the training of engineers for the mining and metallurgical industries. The university is located in the famous "Steel Heart of Russia" — Magnitogorsk. NMSTU collaborates with major production companies (for example, Magnitogorsk Iron and Steel Works). We offer a wide range of Bachelor's, Master's and Postgraduate programs for Russian students and develop advanced Master's programs taught in English for international students. Students and teaching staff at NMSTU are involved in a variety of research activities and grant programs. The University's R&D centre of innovations and technology comprises 14 scientific schools and about 20 research laboratories, the Nanosteels Research Institute, the Innovation Business Incubator and the Youth Research Centre. Our university is also involved in international student exchange programs and has cooperation agreements with 37 partner universities from 60 countries across the world.

<b>12 434</b> Students	<b>600</b> Academic staff
<b>77</b> Bachelor's Degree courses	<b>31</b> Master's Degree Programs
<b>18</b> Postgraduate programs	<b>100+</b> Programs for continuing vocational education and development
